

Dr. ADIL HUSSAIN

Graduation: 2026/06 - Chang'an University, Xi'an, China

Major: Traffic Information Engineering and Control

Research Interests: EV charging station optimization, demand forecasting, charging pricing, charging scheduling, unmanned systems, and AI for intelligent transportation.

Date of Birth: September 21, 1996 | **Nationality:** Pakistani

Current Location: Xi'an, China | **Phone:** +8618629407811 (China)

Email: adilgujjar598@gmail.com | 18629407811@163.com

Portfolio / Homepage: https://dradilhussain.github.io/portfolio/

Personal Profile

I received my PhD in Traffic Information Engineering and Control from Chang'an University (June 2026). My research focuses on optimizing electric vehicle (EV) charging infrastructure, including charging demand forecasting, dynamic charging pricing, charging scheduling, and charging station siting. During my doctoral studies, I developed an integrated optimization framework that combines artificial intelligence, reinforcement learning, and multi-objective optimization; the results have been published in several SCI/EI journals, and I presented my work at the World Transport Congress (WTC) in 2024 and 2026. My research interests include applying AI to transportation and energy systems, smart grids, renewable energy integration, and autonomous driving and unmanned systems. During my PhD, I served as a teaching assistant for the Academic English Writing Workshop at the International Education School of Chang'an University (2024-2026), teaching research methods and academic writing to international graduate students and guiding junior researchers in writing journal and conference papers. Previously, I was a research assistant at the Cyber Reconnaissance and Combat Lab at Bahria University, Pakistan, working on smart home systems and network security. I have received the Chinese Government "One Belt, One Road" Scholarship (PhD), the 2026 Excellent International Graduate Student award, the 2025 Excellent International Student award, the 2024 Outstanding Teaching Assistant award, and the "Star of Study" Award in 2024 and 2025.

Selected Publications

1. Corresponding Author. *AI-Based Pavement Distress Assessment: A Critical Review of Sensing, Learning, and Deployment.* **Archives of Computational Methods in Engineering** (2026) (SCIE, Q1, IF 12.9, CAS ENGINEERING, MULTIDISCIPLINARY Zone 1, TOP Journal) - ACCEPTED (2026/10/27)
2. **1st Author**. *Context-Aware Temporal Fusion Transformer for Short-Term EV Charging Demand Prediction*. **Sustainable Energy, Grids and Networks** (2026) (SCIE Q1, IF 5.7, CAS Engineering & Technology Zone 2)
3. **1st Author**. *On-Demand Dynamic Charging Pricing for Electric Vehicles*. **Egyptian Informatics Journal** (2026). (SCIE Q2, IF 4.2, CAS Computer Science Zone 2)
4. **1st Author**. *Short Term Demand Forecasting of Electric Vehicle Charging Stations using Context Aware Temporal Transformer Model*. **Scientific Reports** (2025) (SCIE Q1, IF 4.9, CAS Multidisciplinary Zone 3)
5. **1st Author + Corresponding Author**. *Charging stations demand forecasting using LSTM based hybrid transformer model*. **Scientific Reports** (2025) (SCIE Q1, IF 4.9, CAS Zone 3)
6. **Corresponding Author**. *Location optimization of EV charging stations: A custom K-means cluster algorithm approach*. **Energy Reports** (2024) (SCIE Q2, IF 6.6, CAS Engineering & Technology Zone 3)
7. **Co-author**. *A Spatiotemporal Forecast-Guided SAC-Learning Framework for 3D UAV-BS Trajectory Planning*. **Scientific Reports** (2026) (SCIE Q1, IF 9.4, CAS Computer Science Zone 3)
8. **Co-author**. *Graph Attention Network-Based Accident Risk Aware Message Dissemination for IoV Safety*. **Expert Systems with Applications** (2026) (SCIE Q1, IF 9.4, CAS Computer Science Zone 1, TOP Journal)
9. **Co-author**. *Modeling the Dependency Relationship of Coupled Power and Transportation Network*. **Energy** (2025) (SCIE Q1, IF 10.1, CAS Engineering & Technology Zone 1, TOP Journal)
10. **Co-author**. *Enhancing Driver Emotion Recognition Through Deep Ensemble Classification*. **Journal of Intelligent and Connected Vehicles** (2025) (SCIE Q1, IF 7.8, CAS Engineering Technology Zone 1, TOP Journal)
11. **Corresponding Author**. *A Reinforcement Learning based Adaptive Dynamic Pricing for EV Charging Stations*. **World Transport Congress (WTC)**, 2026, Tianjin, China.
12. **Corresponding Author**. *A Cost-Aware Optimal Charging Time Algorithm for EVs in a Parking Lot*. **World Transport Congress (WTC)** 2024, Qingdao, China.

Education

2022.09–2026.06	Chang'an University, Xi'an	Traffic Information Engineering and Control	**PhD**
2019.09–2022.01	Bahria University, Islamabad, Pakistan	Computer Science	**MSc**
2014.09–2018.07	PMAS Arid Agriculture University, Pakistan	Information Technology	**BSc**

Research & Professional Experience

- **Teaching Assistant (Tutor)** **2024.09 - 2026.06**

  Academic English Writing Workshop, International Education School, Chang'an University

  Delivered lectures and workshops on research methods and academic writing to international graduate students; assisted lead tutors and guided newly enrolled researchers in developing early research skills, and supported students in preparing journal and conference submissions. Recognized as Outstanding Teaching Assistant (2024) for outstanding contributions; the workshop has also been acknowledged in published papers.

- **Research Assistant (MS Research Fellow)** **2019.09 - 2021.09**

  Cyber Reconnaissance and Combat Lab (CRC), Islamabad, Pakistan

  Conducted security-related research, particularly on smart home systems and networks, and co-authored one paper.

- **Android Developer** **2022.03 - 2022.11**

  Speckpro Digital, Islamabad, Pakistan

  Developed Android front ends and integrated REST APIs for client apps, including "Salon Wizz," the e-commerce app "Kasa Beeston," and the "CASA Tenant Management System"; converted a one-week trial into a full-time role.

- **Junior Android Developer & Intern** **2019.02 - 2019.09**

  O3 Interfaces (Pvt) Ltd., Islamabad, Pakistan

  Worked on the "UBL Digital" mobile banking app, covering features such as bill payments, card management, and digital onboarding, and improved UI/UX; the 3-month internship was converted into a full-time role. Implemented and tested REST APIs, performed QA, and handled daily bug fixes.

Honours, Awards & Funding

2026.06	**2026 Excellent International Graduate Student**	International Education School, Chang'an University
2025.12	**2025 Star of Study Award**	International Education School, Chang'an University
2025.12	**2025 Excellent International Student**	International Education School, Chang'an University
2025.05	**2024 Outstanding Teaching Assistant**	International Education School, Chang'an University
2024.12	**2024 Star of Study Award**	International Education School, Chang'an University
2022.09-2026.06	**"One Belt, One Road" Scholarship (PhD-4 years) by the Chinese Government**	Chang'an University, Xi'an, China

Skills & Expertise

- **Research:** Scientific writing, literature review, research design, academic publishing, data analysis, thesis supervision, teaching
- **Technical:** Machine/deep learning (Transformers, attention-based models, LSTM, CNN, graph neural networks), reinforcement learning, time-series forecasting, predictive modeling
- **Programming & Tools:** Python, Java, C#, C++; LaTeX, Origin, QGIS, Git/GitHub, Jupyter, Google Colab, PyCharm; SQL databases; EndNote, Mendeley, Zotero
- **Languages:** English (Excellent) · Chinese (Basic) · Punjabi (Native) · Urdu (Excellent)
